

RTS Torque Multiplier's

The RTSM multipliers are now available in ranges from 1500Nm - 4500Nm! Giving you the access to a bigger torque range with your wrench, without hauling around all the extra weight!

Features:

- Planetary gear carrier mechanisms that give you higher transmission efficiency and a high load capacity
- Effective ratio of torque multiplication, with certified chart for accurate readings and calculations
- A multiplication accuracy of 5%
- Supplied with two different reaction arms to cover a multitude of tasks
- Robust construction for long lifetime use
- Anti-backlash mechanism for safety and comfortable operation
- Electroplating finish, leaving the tool anti-corrosive and anti-abrasive
- A sturdy weather-case to store your tool, keeping it safe and out of the way
- The RTSM 3000 and RTSM 4500 come with a built on angle protractor for easy torque setting and angle tightening

Part No.	Model	Ratio	Square Drive In	Square Drive Out	Weight Kg	Dimensions (mm)		
						H	L	D
RTSM-1500	TORQUE MULTIPLIER 1500Nm	5:1	1½"	¾"	6.48	125	170	105
RTSM-2700	TORQUE MULTIPLIER 2700Nm	5:1	¾"	1"	6.48	125	170	105
RTSM-3000	TORQUE MULTIPLIER 3000Nm	15.5:1	1½"	1"	11.5	160	245	110
RTSM-4500	TORQUE MULTIPLIER 4500Nm	26:1	1½"	1"	13	160	245	110
